Our Home

EachStep Blackburn is a warm, welcoming and friendly care home, providing specialist residential and nursing care for up to 64 older people and people living with dementia.

Everyone is able to enjoy their own comfortable and spacious bedroom, with en-suite facilities, which we encourage you to personalise by bringing small items from home.

Our home has some wonderful spaces to relax and enjoy the company of family and friends, including a Café area, as well as a large accessible garden so that everyone can enjoy relaxation and activities outdoors.

A Person Centred Approach

EachStep Care is the pioneering new model of care which recognises that people living with dementia need stability in their lives; that their loved one need support and that they should be cared for by well trained staff with facilities that truly meet their needs to enable them to live full, active and happy lives with care and support that respects them as the individuals they are.

All colleagues receive specialist training and mentoring and really get to know the residents. To achieve this we spend time understanding their life story and everything that's important to you, so that we can focus on the things that really matter to you the most.

Activities

At EachStep Blackburn we run an extensive activity programme and support people

to enjoy days out in the local community.

By getting to know our residents we are able to offer activities that meet their different passions and interests.

Everyone enjoys fun one-to-one and group activities, such as art and crafts, reminiscence sessions, quizzes, games nights and sing-a-longs, as well as performances from local entertainers.
